

Great Gorgonzola they really cheesed up the Book didn't they? That sure is some gnarly magic.

Toma's out there tusslin' with them?

Think I beefed it. Never told him the only reason I thought he had a chance against Faux was bro having no drive.

Why's a toon this strong after Toma, anyways?

Blot?

Blot!

Wh-what happened?

I lost already!?

Had to end it
fast once ya cornered
me, yanno?

You're just a paycheck,
bunny. Few more jobs and I
can stop being a hired paw.
Purrsue my **REAL** passion.

To open up my
own pizza chain!

Whew, had me scared for a moment.
Usually those explosive pies do the trick.
Should have prepped some Glueberry.

Why didn't you
use that black hole
pie on me? That
was so broken!

You know how hard
it is to pull a sucker
out of a black hole?

I gots a special
client to deliver ya to,
and it's way easier when
I can just roll ya up!

Lights out,
rabbit!

THWAP

Evan!

Ay, Toma! You gotta show me the wolf form sometime. That bunny of yours is cute, too!

Listen, I figure this is the second time I'm saving your butt. Think that gets me a favor.

Sure, anything!

Here's the deal.
We're gonna take on your little pal for ya.

When that's done, you only owe me one thing:

Go out on a date with me!

WHAT!?
